

'Pro-Tech' what's important to you!!

Plug Adapter GSM Listening Device

The Double Adapter Plug GSM Bug is a very cleverly disguised listening device that may be plugged into any standard UK socket to enable you listen to room conversations and surrounding sounds with exceptional quality.

Simply dial the number of the SIM card inside, this can easily be changed, the Adapter Plug GSM Bug at any time, wherever you are in the world and it will automatically and silently connect, you will then be able to listen in to sounds up to 10 metres away from the adapter. Sound is filtered and free of interference for perfect audio clarity. The bug is powered entirely by mains electricity.

The GSM Infinity Adapter is a super high quality surveillance product that offers long term audio monitoring in an area of concern without arousing suspicion.

This is a fully functional double adapter and unlike inferior models may be used as a normal two way plug adapter too!
