

***'Pro-Tech' what's important to you!!***

## **Mobile Voice & Call Recorder**

This fully functional mobile handset works as a normal mobile phone however with the press of a secret key the handset will begin to record surrounding conversations discreetly. Once recording is in progress there will be NO indication on the phone or any beeps, vibrations or even flashing lights.

All recordings can be stored directly on to a memory card used inside the handset and can be password protected to prevent unauthorised access. Its unique compression can provide up to 99 hours on a 2Gb memory card. This device is very easy to use and is an ideal tool to be used in meetings or even just left at home/work to monitor what is said in your absence.

**\*\* BONUS FEATURE \*\*** If you conduct a lot of business over the phone then this device is perfect for you as you can also use it to record all your calls automatically and discreetly. All your outgoing and incoming calls will be recorded automatically with super clear clarity directly on to the micro SD memory card\* for evidence or use at a later time. Now you can never forget what was said, a great tool for all!!

### **Features:**

- Fully working SIM free Nokia handset
- High Quality Voice Recording in WAV or AMR format
- Password Protected
- Records on to Micro SD Memory Cards
- Records Discreetly
