Covert Digital Audio/Video Watch Recorder

This cleverly designed watch is not only a normal stylish watch but also a covert audio & video recorder. With the touch of a button these watch's can begin to capture footage of all activities whilst on your person or simply left on a desk. Very easy to use this covert device simply operates on a single button and footage is easily accessed via the USB connection. The compact & slim design of this device makes the camera lens very difficult to detect by the naked eye so it can be used in almost all environments without creating any suspicion. This device is highly recommended for use by both professionals and newbie's.
